

RESPECTFUL HOMAGE

Late. Sri. C N Rao
B.Tech. (Mech) 1989 batch

Sri C N Rao, General Manager (Production) at ONGC's Uran Oil & Natural Gas Processing plant, helped avert a major disaster when a fire broke out on the premises on 3rd September 2019, but sadly ended up paying with his life.

Having worked on both National & Regional Crisis Management Teams (CMT) of ONGC, he took a leading role in the fire containment efforts at Uran, successfully closing the main gas line, but was killed by a blast shortly thereafter. He sacrificed his life in the line of duty trying to save Uran, a strategic National facility. He was an Alumnus of NITK (B.Tech-Mech, 1989 batch), and is a true Hero. His passing and the loss is keenly felt by the NITK family.

May his brave soul RIP

Heartfelt Condolences.
NITK Surathkal
